***Examiner's Amendment***

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment is provided, even though the election was made with traverse, in that no arguments were made traversing the restriction requirement. As such, the election is held to be without traverse and the Examiner's amendment canceling the nonelected claims is proper.

The application has been amended as follows:

**Cancel Claims 1-15.**

***Reasons for Allowance***

Claims 16-20 are allowable over the prior art of record.

The following is an examiner's statement of reasons for allowance:

The closest art known to the Examiner is listed on the attached PTO 892 form and the Applicants' IDS forms.

None of the references or combinations thereof suggest or disclose forming graded dielectric constant spacers on sidewalls of a gate electrode, sidewalls of a gate dielectric layer and portions of an upper surface of a semiconductor substrate, wherein the dielectric constant of the graded dielectric constant decreases in value in a direction

away from the gate dielectric layer as required by the presently claimed invention.

Therefore, Claims 16-20 are allowable over the cited prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
